

ongratulations on your savvy purchase of a top of the line LED luminaire.

Your new LED luminaire is engineered for ultimate efficiency without sacrificing quality of light. Cool operating luminaires mean less energy is wasted on heat and more is used towards generating light. These advances have also allowed us to design products for modern lifestyles and build them to last; from the structure, to the electronics, and the light source itself.

Certificate of Warranty

We warrant to the first non-dealer purchaser of any of its products that they are to be free from defects in material and workmanship for a period of five (5) years from the date of purchase for all indoor products. For outdoor products: electrical components, including LED components are warranted for five (5) years; outdoor painted finishes are warranted for two (2) years. Stainless steel finish products are warranted for lifetime, under normal use, as long as the Original Purchaser owns the product. Although we use the best available materials and does extensive testing for finish endurance, some fading or chalking may occur and is considered normal. For coastal locations, some corrosion and/or deterioration is considered "normal wear" in this environment. Therefore, any finish claim due to coastal environment conditions is not applicable to our warranty.

If a product is defective, all efforts will be made to correct the problem in the field. If the problem cannot be resolved, an RGA number will be issued through the distributor through which the fixture was purchased. The Company's obligation under this warranty shall not extend beyond the direct replacement of the fixture itself and excludes any other costs including but not limited to labor and material costs.
