

# SPRING SMALL LED

Spring is a series of pendant lamps made up of stainless-steel strips. Pliant ribbons of stainless steel have been arranged like a whisk around our custom-made dimmable Tom Dixon LED module. The semi-transparent shape thus created can be adjusted to a variety of silhouettes - from a flat arrangement reminiscent of a spirograph drawing, to a flying saucer configuration, and on to a fuller shape akin to a pumpkin. The nature of the spiral design allows the voluminous shades to be easily flat-packed for transportation.
