7

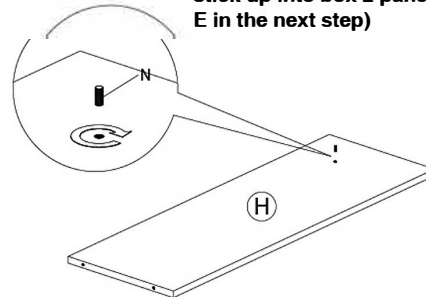

Be careful to keep panels E & B from separating until they are attached to the side panels later

Box 2

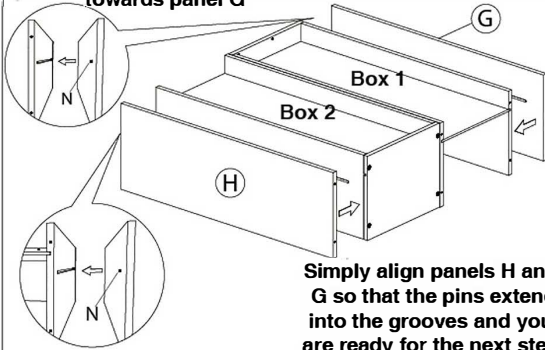

8

Please attach the second N pin to panel H (the bottom panel, this will stick up into box 2 panel E in the next step)

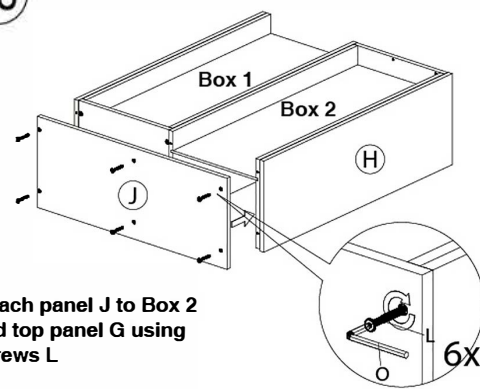

9

Keep both boxes with panels C oriented up. Invert them so box 1 faces the opposite way from box 2. The pin N on box 1 should extend towards panel G

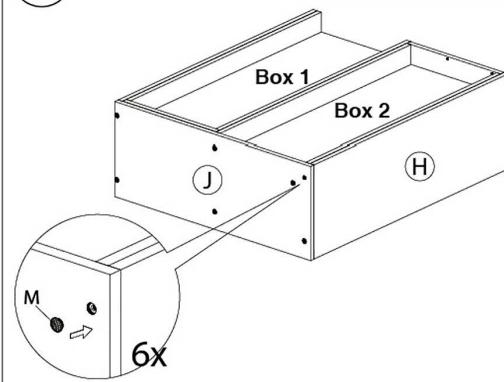

Simply align panels H and G so that the pins extend into the grooves and you are ready for the next step

10

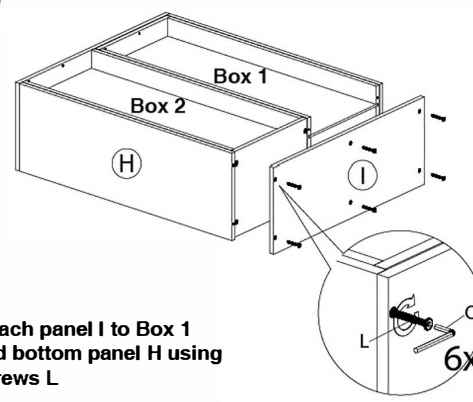

Attach panel J to Box 2 and top panel G using screws L

11

12

Attach panel I to Box 1 and bottom panel H using screws L
