MOTION-ACTIVATED LED WALL SCONCE

Black
Bronze
White

Elegant Lighting Without An Electrician!

Benefits:

- An elegant addition to any outdoor area such as entry ways, porches or sheds.
- Lights when motion is detected, so it only comes when people are nearby.
- No more stumbling in the dark, or fumbling for your keys!
- Easy to install – It only takes two screws to attach the mounting bracket, and the module is secured with two more thumb screws.
- Battery powered, so no electrician necessary. Get light where you need it without having to run electric wires.

How it works:

- The LED Wall Sconce turns on automatically after dusk when motion is detected producing 100 lumens of bright white light.
- Runs on 4 C Cell Batteries.
- Batteries last about 1 year of normal use.
- Adjustment dials:
 - (TIME) allows duration of light from 10-60 seconds.
 - (LUX) adjusts the time of day when the motion sensor becomes active.
- Works year round in all climates. IP44 weatherproof rated.
