VSF 110DCMH-S SERIES

MULTI-SPEED Continuous Run Slim Fit Bathroom Fan with Humidity and Motion Sensor

Description: Multi-speed super quiet DC (Direct Current) bathroom fan with continuous adjustable CFM dial from a low of 30 CFM up to a high of 140 CFM • Integrated user adjustable motion and humidity sensors • Ceiling or wall mount to a 45° angle • Suitable for new construction or remodeling • HVI certified • ENERGY STAR qualified • ETL listed for use in insulated ceilings (Type I.C.).

Motor/Blower: Permanently lubricated enclosed brushless DC motor engineered for continuous energy efficient operation; power rating 120v/60Hz; motor equipped with thermal shut off.

Housing: Rugged 26 GA galvanized steel; detachable 4" and 6" duct connector with built-in back draft dampener; 2 anti-vibration hangar bar brackets adjustable to 24" span included.

Finishes: White (W); Satin Nickel (SN); Oil Rubbed Bronze (OR).

Installation: Must be installed by a licensed professional. Complete installation instructions included.

User Adjustable Integrated Sensors: Motion sensor preset for 20 minutes; humidity sensor adjustable from 50-100% relative humidity (RH); either sensor starts fan.

Warranty: 6 Years

Architect's Specifications: Multi-speed continuous run ventilation fan will be ceiling or wall mount, ENERGY STAR qualified, adjustable multi-speed dial with low of 30 CFM and a high of 140 CFM; and no more than 0.6 sones at 110 CFM as certified by HVI at 0.1 Ps (inches water gauge). Power consumption shall be no greater than 11 watts and ENERGY STAR rated with efficiency rating of no less than 10 CFM/watt. The motor will be enclosed brushless DC motor, engineered for continuous operation. Duct diameter will be 4" or 6" round. CFM switch tab will allow for 5 separate airflow (CFM) settings for 4" or 6" duct. Fan will begin operation when either someone enters room or humidity rises above user adjustable setpoint (50-100% RH). Dual humidity and motion sensors with timer set to 20 minutes. Fan shall be ETL/cETL listed for tub/shower enclosure when used with GFCI branch circuit wiring and shall be ETL/cETL listed for use in insulated ceiling (Type I.C.). Fan shall be ASHRAE 62.2, LEED, CalGreen, and WA Ventilation Code compliant.

ETL Listed for installation over tub/shower enclosure with GFCI circuit wiring.

Model: VSF 110DCMH-S Series	6" Duct	
Static Pressure (inches w.g.)	0.1	0.25
Air Volume (CFM)	110	79
Noise (sones)	0.6	n/a
Power Consumption (Watts)	11	11
Energy Efficiency (CFM/Watts)	10	7.2
Current (AMPS)	0.2	0.2
ENERGY STAR rated	Yes	
Grille Dimensions	13 3/8" x 13 3/8"
