## Put the Headboard onto a flat

Align the mounting position on Headboard to the mounting position on Left Support

Then, lock the top and the middle mounting positions by Flat washer (H3), Spring washer(H2), bolt(H1), Then tighten the bolts with allen wrench (H4).

Repeat the same steps to install the Right Support Leg(P3). At this point of assembly, DO NOT overfasten the connections. The final height of the Headboard may be adjusted to your own need.
