PRODUCT REGISTRATION

Important: The product registration form on page 19 and a copy of your receipt must be completed and returned within 10 days of purchase to validate your warranty.

Preparing for Assembly

- Be sure to unpack all of the parts included in this package. Check inside any tubes or sleeves. Save all packing material until the product is fully assembled and functional.
- Compare the parts in your package with the Parts Identifier description on page 4 and page 5.
- After unpacking large products, some disassembly may be required prior to beginning the assembly.

Tools Required

- Open End Wrench (#38)
- Allen Wrench (#2)
- Phillips Screwdriver (not included)
- Level (not included)
- Electric screwdriver may be helpful. **CAUTION:** You must set at LOW TORQUE and use extreme caution because you could overtighten the hardware, strip the screws, or damage the table.

Assembly Tips

Make sure you understand the following before you begin to assemble your game table.

1. READ THIS MANUAL all the way through before beginning assembly.
2. When installing parts that have more than one bolt, start ALL bolts in that part by hand before tightening anything.
3. Some drawings or images in this manual may not look exactly like your product.
4. You may need a second adult to assist with this assembly.

Note: Save all packing materials until the parts have been inspected and the table is assembled.

Unpack the Pieces

- Lay the box on a flat surface (floor). You may want this near your area of assembly.
- Unpack the boxes and part bags. Inspect and count the parts. The Parts Identifier page can be used to record your results.
- If any parts are damaged or missing, contact GLD Customer Service.
- Missing fasteners may be purchased at a hardware store using the descriptions on the Parts Identifier pages.

Games

This game table includes the equipment and game pieces for Air Hockey, Pool and Table Tennis. The rules for these games are not discussed in this manual.

STEP 1 - ASSEMBLE THE LEGS

1. Select one of the leg pieces (#9 or #10) and lay it flat on the floor. Do not bend the hinge in the leg backwards. Damage to the outer surface will occur.
2. Position three of the “L” shaped steel brackets (#39) on one side of the leg. Use three screws (#43) to attach the brackets to the leg. Close (fold) the leg and use three screws (#43) to secure the brackets. Tighten the screws.
3. Place a leg base (#11) at the bottom and insert three screws (#25) into the holes. The pressed in nut must be facing out away from the leg.
4. Tighten the screws.
5. Screw a leg leveler (#13) half way into the leg base.
6. Repeat for the remaining three legs.

STEP 2 - ATTACH THE TABLE LOCKS AND CATCH BOX

1. Insert the table locks (#14) into the end panel (#3). Use four screws (#27) to secure each one.
2. Hold the catch box (#4) in position. Insert four screws (#25) from the back side of the end panel.
3. Tighten the screws.
4. Repeat for second end panel

Open (unlocked)

Closed (locked)

STEP 3 - ASSEMBLE BALL RETURN BOARD

1. Attach the ball return boards (#5) to the bottom of the end panels (#3). Use four screws (#25) per ball return board.
2. Tighten the screws.

STEP 4 - ASSEMBLE LEGS TO END PANELS

1. Insert four barrel nuts (#22) into the left and right holes of an end panel (#3). Attach a left leg (#9) and a right leg (#10) to an end panel (#3) using two bolts (#16) per leg.
2. Attach a leg panel (#8) to the legs and secure it using four screws (#24) per leg panel.
3. Repeat steps 1 and 2 to assemble the other apron and legs.

STEP 5 - ATTACH LEG BRACES

1. Insert four barrel nuts (#23) into the holes of the leg braces (#7) as shown. Attach the leg braces (#7) between the assembled legs using four washers (#21) and four bolts (#17) per leg brace.

STEP 6 - ASSEMBLE CABINET (TABLE TOP) TO LEGS

All bolts and screws from previous steps must be tight. Two adults are recommended for this step.

1. Engage all four table locks.
2. Locate the two large bolts (#18). Place a washer (#19) onto each bolt.
3. Place a second washer (#20) onto the bolts.
4. Finger start a bolt into each end of the cabinet (#1).
5. Place the cabinet into position. The bolts will drop into the slots at each end. The smaller washer must be outside the end panel and the plastic washer must be between the end panel and the cabinet.

NOTE: The electrical cord must be loose.

6. Open the table locks. Tighten the bolts until they are snug and the cabinet can rotate smoothly.

STEP 7 - ASSEMBLE TOP SIDE PANELS AND SLIDE SCORERS

1. Attach the two top end panels (#6) to the top of the end panels (#3) using eight screws (#25) for each top end panel.
2. Attach the slide scorers (#15) to the top end panels (#6) using two screws (#26).

STEP 8 - ADJUST THE LEVELERS

1. With the help of another person, lock the table in position. Turn each leg leveler until the table rests level.
2. Check with a carpenters level placed cross-wise and length wise on the table top.
3. Re-adjust leg levelers as necessary.

NOTE: Rolling a billiard ball slowly on the game table surface will help to determine level.

STEP 9 - ASSEMBLE PUSHERS

1. Peel paper from one of the hockey felt pieces (#32).
2. Attach the felt to the bottom of the pusher (#31).

**STEP 10 - ACCESSORIES**

1. Clip the cue holders (#40) in place over a leg brace.
2. Secure the storage organizer (#41) to a leg brace using two screws (#24).

STEP 11 - TABLE TENNIS NET WITH POSTS ASSEMBLY

1. When you want to play table tennis, put the tennis surface (#12) carefully on top of the game table.
2. Insert the table tennis net with posts (#30) into the holes of the table tennis surface (#12).

**To rotate the table:**

CAUTION: This should be performed by an adult. The rotating table may pinch body parts.

- Before you rotate the table, remove the pool balls.
- Pull out two table locks on one end.
- On the other end, pull out the two table locks.
- Slowly rotate the table.
- Push in the table locks.

If the fan does not go on:

- Unplug from electrical outlet.
- The fan is located between the two table tops.
- Inspect wiring for proper connection.

If the fan works but the table has dead spots:

- Use a small drill bit and clear the holes by hand. DO NOT use an electric drill. Manually push the drill bit into the holes to clear.
- Polish the air hockey table by spraying a furniture polish onto a rag and wipe onto the table. Do not spray directly onto the table top.

Care and Use of your Table

- This product is intended for INDOOR use only.
- DO NOT sit, climb, or lean on the table.
- DO NOT drag the table when moving it. This will damage the legs.
- Keep your table covered. The pool table playing surface can be brushed to keep clean.
- To clean the hard surfaces spray a cloth with a mild cleaner and wipe.
- Pucks that fly off the table may have chipped edges. Inspect the puck and replace if needed.
