

Make a statement

The kitchen is the heart of your home, and nothing makes a statement of timeless style and soul quite like a cast iron kitchen sink. The lustrous enamel is available in a wide array of KOHLER colors to match your kitchen decor and personalize your space. With a range of shapes, sizes and configurations, there's a cast iron kitchen sink to complement every design aesthetic and cabinet/counter configuration.

Designed to last

KOHLER cast iron kitchen sinks are so durable, they are guaranteed not to chip, crack or burn.

Stain-resistant

Enameled cast iron has an incredibly smooth, nonporous surface that makes it exceptionally resistant to food-based stains and easy to clean with just a soft sponge—no abrasive cleaners or harsh chemicals. Just a quick rinse and wipe, and you're done.

Heat-resistant

The ultrathick enamel surface is heat-resistant to more than 1,000° F so you can safely leave your hottest Thanksgiving roasters or holiday cooking sheets to soak in the sink without worry.

Made from recycled materials

At Kohler, we believe that making environmentally responsible choices is just as important as inspired design or innovative technology. That's why our sinks are crafted in Kohler, Wisconsin, using 80% recycled or reclaimed content.

Versatile configurations and options

Multiple configurations allow you to create a look that complements the rest of your kitchen style. Choose from farmhouse (shown), undermount, top-mount, and freestanding options. A range of optional accessories add functionality, convenience and help keep your sinks clean and your counters clear.

Undermount

Color portfolio

The range of color choices for KOHLER enameled cast iron products allow you to personalize your space to your own style and taste. These rich colors can add a masculine statement or a soft, feminine touch that stands beautifully on its own or highlights other elements of your decor. In addition to the colors shown, many cast iron sinks are available in other versatile and dynamic colors.
