An Energy Star and ETL certified product, our 5-6 inch dimmable LED Disk Downlights are great alternatives to dimmable LED downlights when your ulterior motive is to have a round surface mount light with a sleek design so as to fit in a limited plenum space. These kind of LED disk downlights are low-profile downlights yet they impart certain sophistication to the ceilings.

SPECIFICATION

Wattage	Voltage	Lumens	CCT	Beam Angle	CRI
15	120V	1200	3000-5000K	120°	>90

MODEL VARIATION

- Nowhere you will find any dark spot when using this dimmable LED downlight in its full non-dimming mode. The light distribution is uniform and even with the light spread at a wider beam angle.
- The dimmable LED downlight utilizes a wide beam angle of 120-degree to illuminate large spaces when your objective is to have a non-directional light. The distribution of light is in such a way that no specific objects are highlighted and rather the light distribution is uniform and even.

WARNING AND CAUTIONS

- The product must be installed according to the instructions. Installed by a person familiar with the product, production and product hazards.
- Avoid fire and electric shock. When installing the lighting fixtures, you need to understand the electrical characteristics. If you are not sure, do not attempt to install. Please contact an electrician.
- Understand the structural features and dimensions of lighting before installation.
