| Door Buckle         | 8           |                |

Q:What is the finish of the base?

A:It is chrome. (Note: There is a white PE film on the surface of the base, which needs to be peeled off to expose the actual chrome surface. The layer is used to protect the chrome surface from scratches.)

Q:How many bulbs are included? What type of bulb is compatible?

A:Bulbs are not included. It requires 6 GU10/Bi-pin bulbs.

Q:What is the maximum compatible wattage for each bulb?

A:Halogen bulbs do not exceed 40W each, LED bulbs do not exceed 9W each.

Q:What is the voltage of the light?

A:Applicable voltage range 90-260v.

Q:Is this fixture dimmable?

A:Yes, it can be dimmed. But it requires dimmable bulbs, and a dimmer needs to be installed for this light.

Q:Can it be installed in a sloping ceiling?

A:It cannot be installed directly on the sloping ceiling. However, you can use an "adapter" so-called "chandelier lift", and you need to make sure it is level when installing.

Q:What power source does this product use?

A:Hardwired.

Q:Is this product ETL (Electrical Testing Labs) listed?

A:Yes, ETL Listed.

Q:Is the hanging height adjustable?

A:No, it is fixed.
