Category: Dining Room

Collection: Beaumont

Motion Type: Stationary

Material: Leather

Number of Shelves: 0

Number of Drawers: 0

Number of Leaves: 0

Style: Traditional

Finish: Light Wood

Brand: Hooker Furniture

Product Description: With a chic French laundry-look, the Beaumont Host Chair eclectically blends a top-grain, slate-colored leather seat and back with burlap on the seat back, accented with bronze carpenter nails and a gimp welt. The wood and Raffia arms and wood legs are finished in Sheaf, a light oak finish.

Collection Features: Beaumont is a curated group of one-of-a-kind pieces, inspired by American antiques and the concept of upcycling - the process of giving new life to vintage items with updates such as refinishing or repurposing them for new and unique uses. With roots in traditional design, the collection offers an exquisite and eclectic remix of old and new, combining the look of seasoned antiques and refurbished treasures with the conveniences of newly constructed furniture.

Additional Information: Beaumont Host Chair

Status: Active

Finish: Sheaf, a light oak finish. Distressing includes worm holes, rasping and gouging.

Features: Bronze carpenter nails

Gimp welt on burlap chair back

Leather seat and back

Blanket stitch treatment on leather back

Material: Raffia, Fabric and Leather

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.

Leather: Pommel Horse (Top Grain)
