The diagram illustrates a mechanical assembly. At the bottom is a large, rounded component labeled **A**. Above it is a smaller, circular component labeled **E**, which is connected to **A** by a vertical shaft with a nut and washer. Above **E** is a complex assembly labeled **C**, which consists of a central hub with four arms extending outwards. This assembly is connected to a larger, more complex component labeled **D**, which has a central hub and four arms extending outwards. A red line connects **C** to **D**. To the right of the main assembly, there are three small images: a square component labeled **B**, a curved arrow, and a star-shaped component.

Do not over tighten.

Do not use power tools to assemble.
