

battery-powered, motion-activated DUAL-HEAD LED SECURITY LIGHT

2 Adjustable Heads To Aim Light Anywhere!

Super-Bright LEDs Turn Night Into Day!

This adjustable dual head security light turns on automatically when motion is detected providing security, safety, and convenience. Two heads—each with four super-bright LEDs—will light your deck, porch, driveway, backyard, barn, or shed! Aim the heads in different directions to cover a wider area.

NO WIRING OR ELECTRICITY REQUIRED

With easy DIY installation, no wiring or electrician is needed. Simply install 3 C-Cell batteries and mount with the included screws. Batteries last approximately 1 year with normal use.

WORKS ANYWHERE INSIDE OR OUT

No solar panel to wire. No wires to look at. Battery powered so mounting locations aren't limited by the availability of sunlight. Mount anywhere!

WORKS YEAR ROUND, IN ALL CLIMATES

An IP44 weatherproof rating, sealed lens covers, and durable design ensure this light will last a long time.

FULLY ADJUSTABLE

Three dials allow you to set the duration of time the light stays on, motion sensitivity, and light sensitivity. The dual heads can be set to stay lit from 10 seconds to 30 seconds, to detect motion from 10 to 30 feet away, and to turn on when a certain level of darkness is reached.

INCLUDES
