# Our mailboxes have quality you can see.

Our cast aluminum mailboxes have several outstanding features that are obvious when handling one of our products. The extra thick walls and solid construction are the first things you will notice. The rust proof hinge and magnetic catch that secures the door comes to your attention next. As you handle it, the attention to detail becomes apparent in the deeply cut, embossed designs and hand applied antique finishes. Then there are the things you can't see: rust proof construction and a maintenance free Powder Coated finish. All of these features add up to a mailbox that will out last and out perform any other mailbox available.

# Mailbox

This Mailbox presents an impressive face. The one piece cast aluminum door features deeply cut details with a rich, leather grain textured panel. The stainless steel spring hinge and magnetic catch will keep the door secure and the rust proof cast aluminum body creates a weather resistant mailbox.
