Standard Care Procedures for fabric Furniture .

In order to preserve the original appearance of your fabric furniture, please follow below simple care procedures:

Avoid exposing furniture directly to sunlight or heating and air conditioning outlets. Sunlight and/or exposure to heating and air conditioning outlets will fade/damage fabrics . Do not place your fabric furniture too close to windows, radiators, and be sure to use windows, radiators, or vents, and be sure to use window treatments to block the sun's rays

Vacuum or wipe with a cloth regularly to remove dust. Although you won't see it as you do on a tabletop, dust settles on your fabric and can soil and abrade it if not removed regularly.

Blot (DO NOT RUB) all spills immediately with a clean, dry white cloth. Clean fabric with a damp cloth and mild soap & water. Do not use any abrasive or corrosive cleaners as they will damage the fabric
