

## MEASURING FOR YOUR FURNITURE DELIVERY

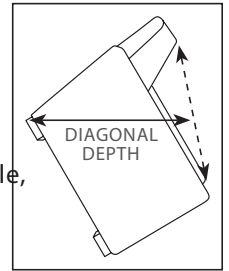

It's important to make sure that the furniture you are ordering will fit in your home.

### CONFIRM ALL PRODUCT DIMENSIONS

Our website provides width, depth, and height for every piece of furniture.

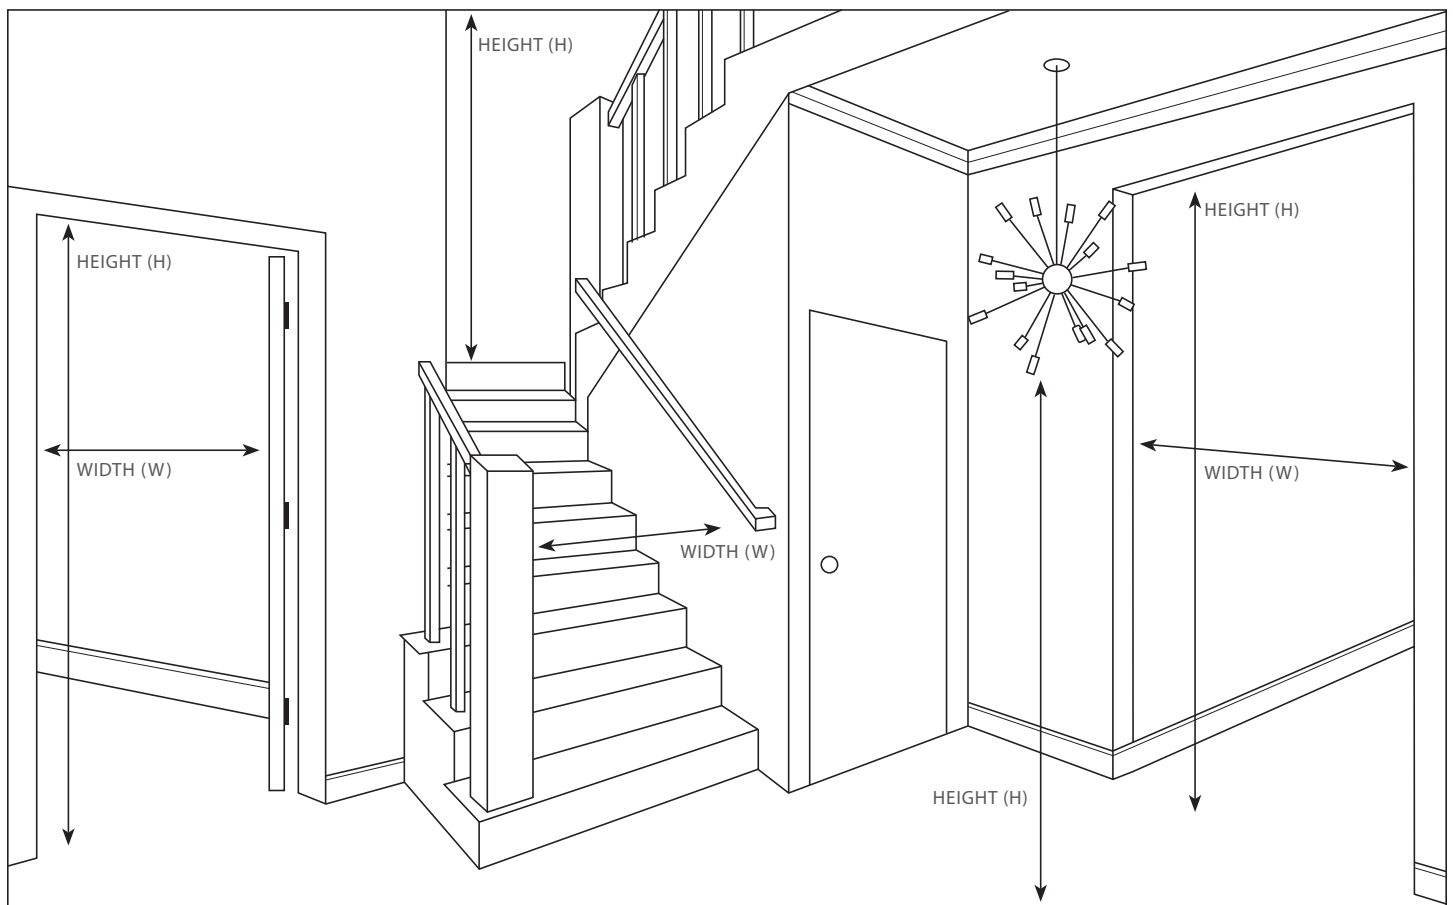

### MEASURE YOUR SPACE

Identify where you intend to place your furniture. Check the width, depth and height of the item on our website, and make sure it will fit in the space you've chosen. Consider creating a floor plan to scale, or marking out the width and depth of your furniture on the floor with painter's tape.

### MEASURE YOUR DOORWAYS, STAIRWAYS AND PASSAGES

Determine the best pathway from outside your home to the room where your furniture will be placed. Measure every doorway, elevator, staircase, and hallway that the item will pass through. For apartment buildings or homes with elevators, it is important to measure the elevator interior height, elevator opening and distance to the opposite wall. Also measure entry clearances – the distance between the doorway and the opposite wall – in the event that the furniture needs to turn a corner. Compare these measurements to the dimensions of your new furniture to ensure that our delivery professionals can navigate through entryways and around obstacles.

#### DOORWAYS

- Measure the interior width and height of all doorways
- Check how wide your door can open
- Check for any architectural details that may impede access

#### STAIRWAYS

- Measure the width of your stairway, taking into account any handrails or posts
- Measure the height from the top and bottom steps to the ceiling
- Make sure the item can fit on and around landings

#### HALLWAYS

- Measure the width of hallways, taking into account any twists or turns
- Check for any architectural details and low-hanging fixtures that may impede access
