How to Pick a Drawer Slide

Hickory Hardware® drawer slides accommodate a wide range of applications.

1. Determine your needs.

Length

Replacements: measure your existing slide.
New installations: measure your drawer and cabinet.

|--------------|---------------------|---------------------|
| 12" | 10 5/8" to 12 1/2" | 13" to 14 1/2" |

Weight Capacity

Use center mount drawer slides or light duty side mount slides for lower weight capacity.

Heavy loads, such as large pots, require slides with a weight capacity of 50-100 lbs. See: 1050 Series.

Travel

Also called extension, travel indicates how far the drawer comes out of the cabinet.

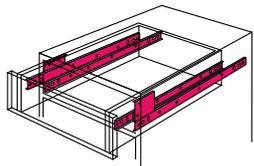

3/4 extension: the drawer opens 3/4 of the drawer length. See: 1175, 1336, & 1700 Series.

Full extension: the drawer opens the full length of the slide. See: 1050 Series.
