★ Screw&shim

M\*2

Plastic Plug

N\*2

Metal Plug Cover

O\*1

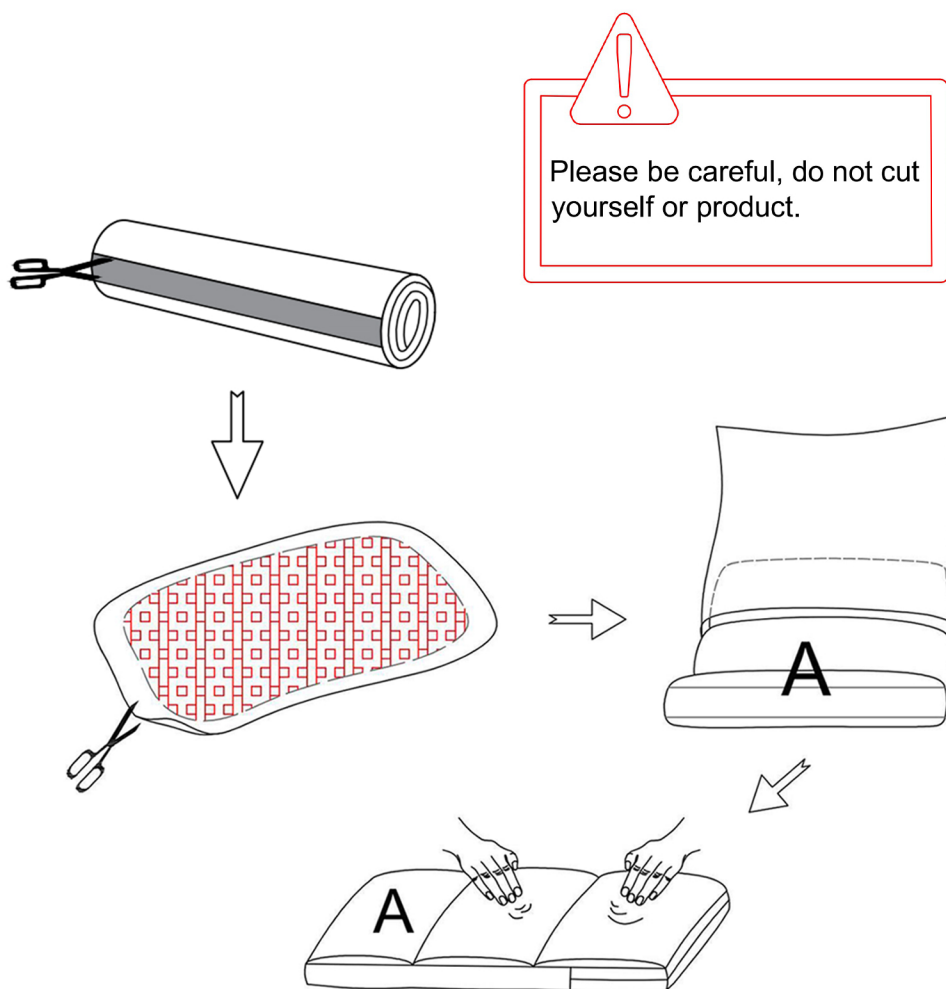

Hook

Please make sure all hardware&packing material fitting the list.  
Especially some small accessories may be missing during transportation. Please contact us if you have any question.

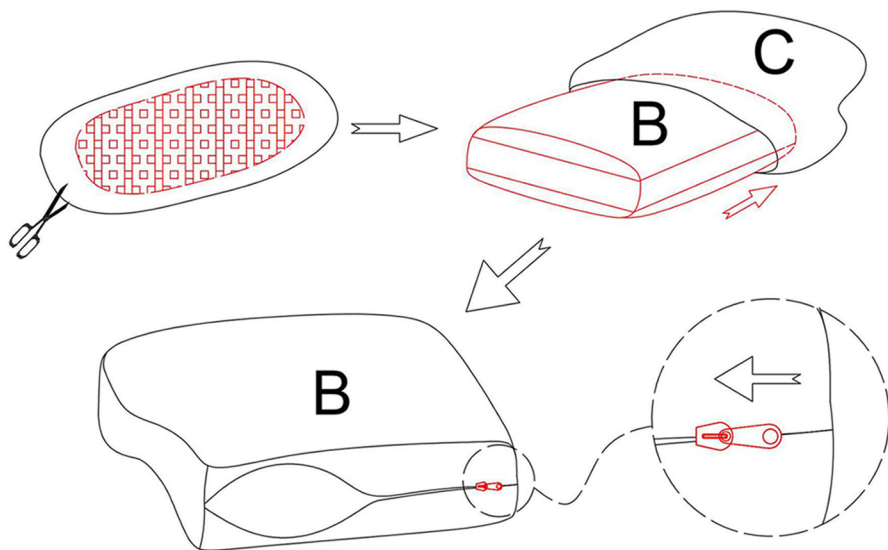

# step 1

Cut open the compression bag along the paper strip on the roll bag. Remove the seat cushion (A) and let them rest to recover their shape. Full recovery may take up to 48 hours, but you can gently slap the cushions to speed up the process.

# step 2

For cushion(B), please put it into the cushion cover(C) after fully recovered from compression and zip the cover as shown.

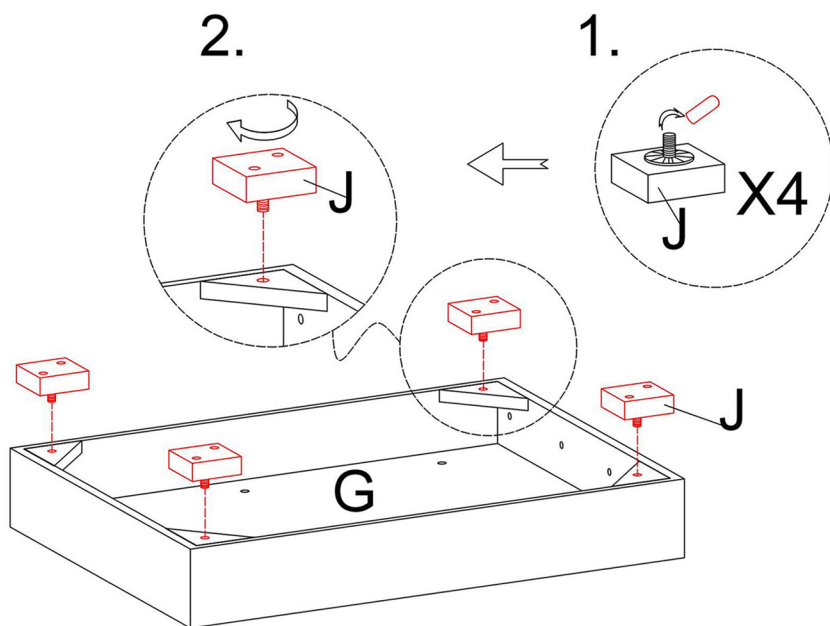

# step 3

Please remember to remove the plastic covers from all the sofa legs.

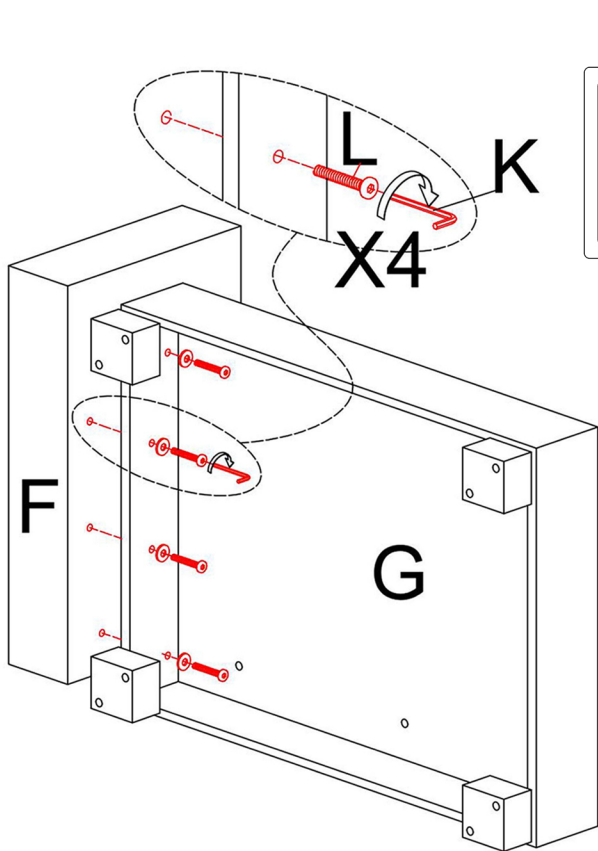

Place the wood sofa frame(G) upside down as shown, gently rotate the legs(J) clockwise into the screw holes on each corner of the frame.

we suggest the whole process to be done on a clean carpet or rug, to protect your floor and your sofa.

# step 4

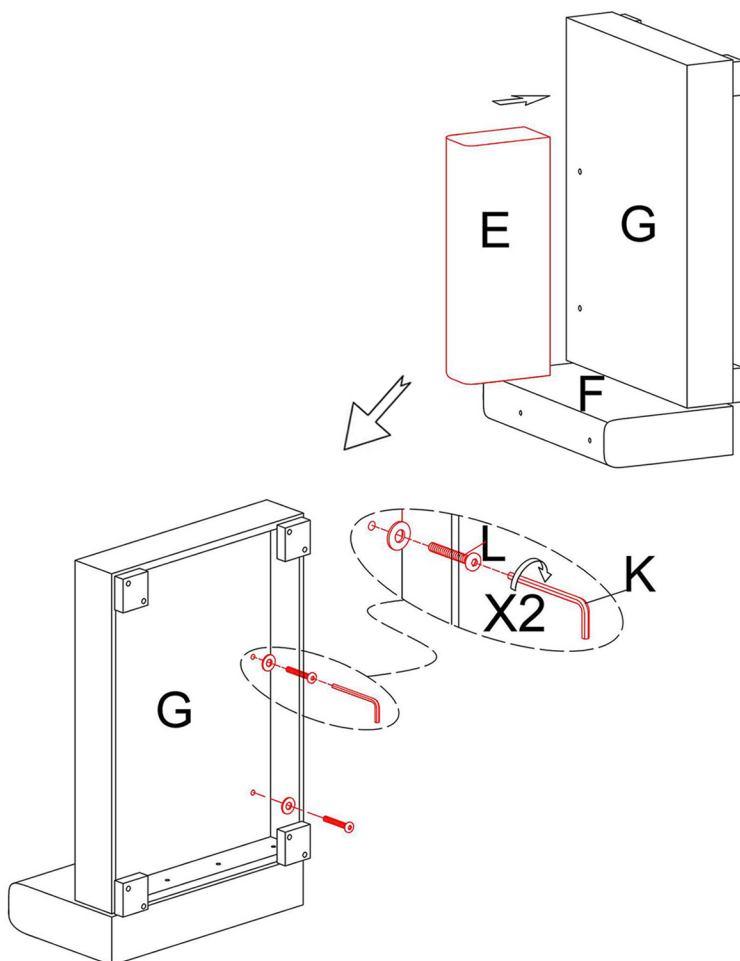

Place the sofa frame (G) on its side as shown, and put all four screws (L) into the predrilled holes. Then place the backrest(F) near the sofa frame (G) as shown. Align all four screw holes, then use the wrench (K) provided to tighten them.

Twist in all four screws by 30%, make sure all the screws are able to twist, then tighten them.

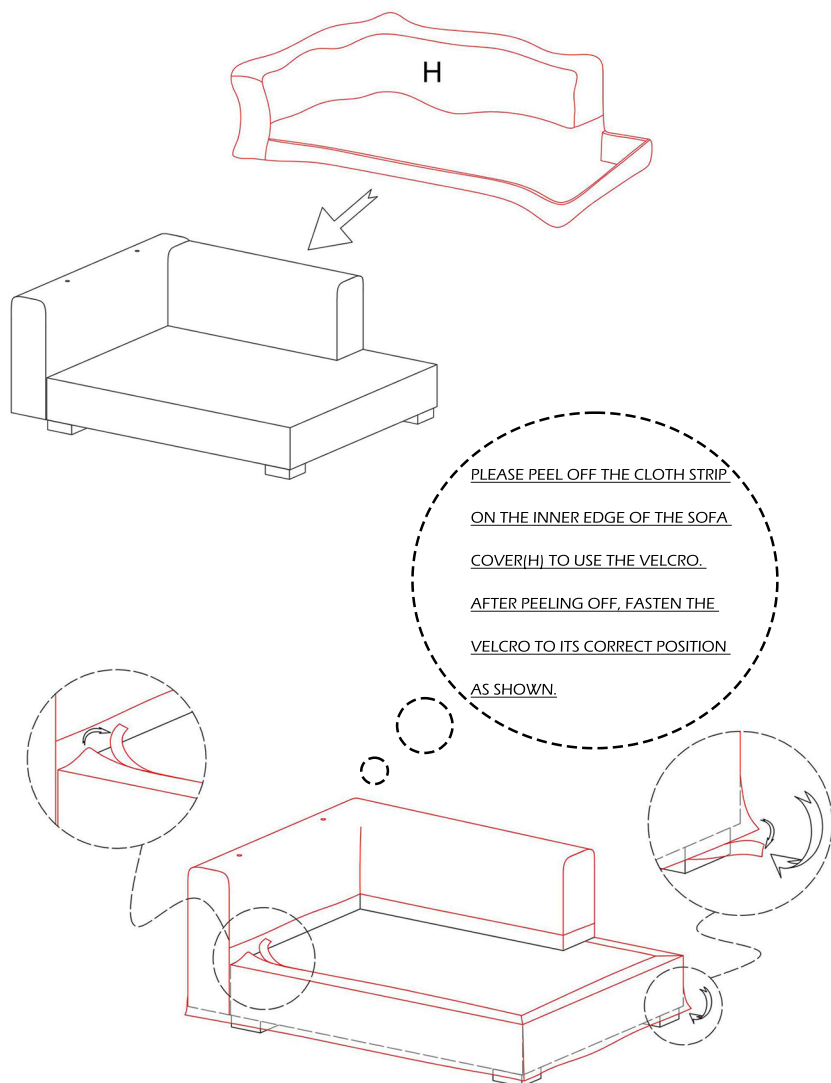

# step 5

Flip over the sofa by standing on its backrest(F) as shown, then align the armrest(E) with the predrilled holes on surface(G), then use the wrench to twist both screws to fix the armrest (the screws need to be tightened from the bottom of the frame).

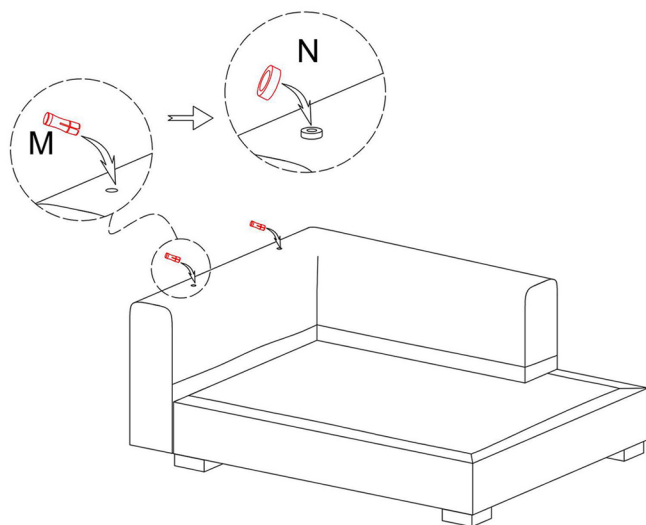

# step 6

Put the sofa cover (H) onto the surface of the sofa, making sure the positions of the armrest and backrest are correct. then, pull the edges of the cover to stretch it evenly.

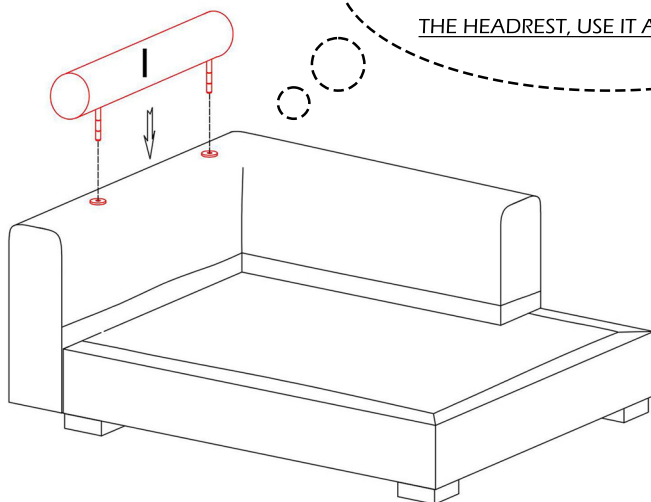

# step 7

Insert the plastic plugs (M) into both holes on the backrest, then twist the metal plug covers (N) onto them.

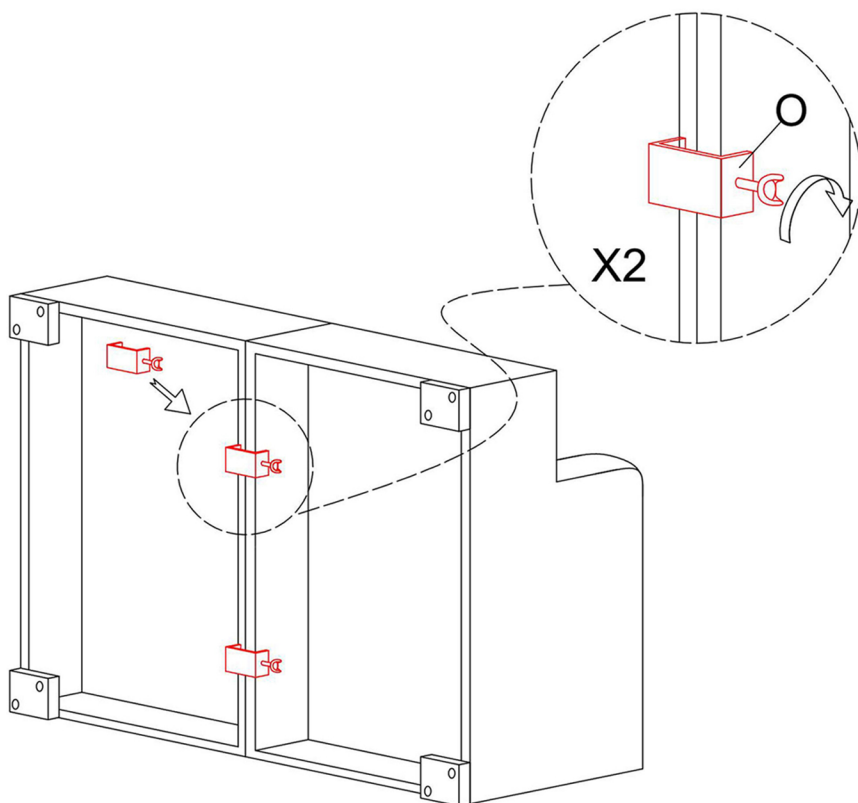

PUSH THE HEADREST(I) DOWN TO THE HOLES ON BACKREST. REMEMBER, THERE ARE THREE LEVELS ADJUSTMENT OF THE HEADREST, USE IT ALL YOU WANT.

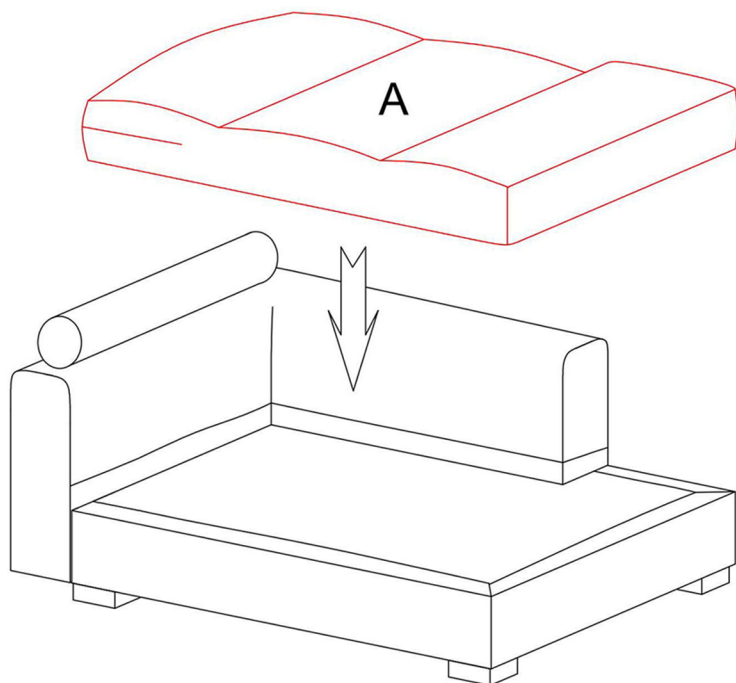

# step 8

The metal hooks(O) are connectors which can put the ottoman and the sofa, or unilateral sofas together. if you want to try this feature, just simply flip the sofa on its side, and put an unilateral sofa or ottoman right next to the correct edge. then use the metal hook(O) to clamp both edges as shown, then tighten the hooks, make sure they are all firmly tight before you use or move the sofa. we suggest you do this step before you put cylindrical pillow(headrest).

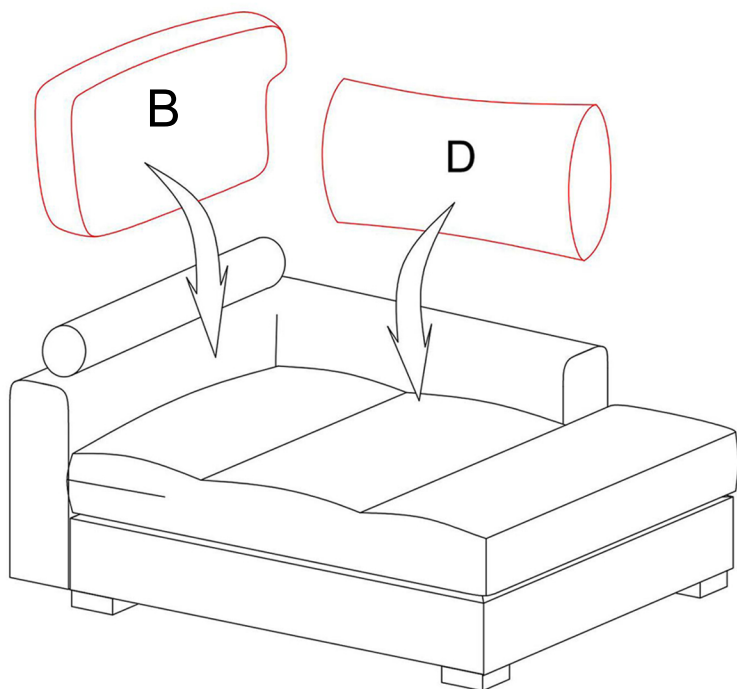

# step 9

Place the cushion (A) as shown.

# step 10

Place the back (B) and arm cushions (D) onto the sofa as shown.

# step 11

Clean up the mess and start enjoying it. congratulations! you have completed the assembly—now it's all yours. thank you for reading!
