

## Four Seasons Add-A-Room W1207 (8' x 12')

- Four seasons Add-A-Room (96" at the wall) and 74" in the front.
- 8 ft. x 12 ft. (2.44 m x 3.65 m)
- The add-a-room model comes with two single doors that you can put on the sides you want.
- The door handles are pre-installed and allow consumers to decide whether they would prefer having the door open to the left or to the right.
- Frame: 44 ½" wide x 74" x 2 ½" thick extruded aluminum frame, Sand colour  
Sliding door: 43 ¼" wide x 71" high x 1" thick. Opening of 41".
- Roof: 5/16" thick polycarbonate material (8 mm), colour: Smoke
- Wind panels are made from PVC material, Smoke Colour.
- The wind panels can slide all the way down to the bottom or in any of 5 positions and allow maximum air circulation. (Other models can only open one section at a time, it represents approximately 28 inches.)
- Caps are included to hide all unsightly screws.
- If the screening or windows happen to tear, they are easily removable and replaceable.
