# Life without labor is guilt. Labor without art is brutality.

- John Ruskin

What John Michael Kohler saw in 1883 when he looked at a cast-iron horse trough was the bathtub that launched a global plumbing company. That pioneering spirit of ingenuity – the kind that sees a bathing revolution in a horse trough – has defined Kohler Co. from its earliest days. A visionary, John Michael Kohler understood the importance of innovative design and an uncompromising commitment to craft and quality. After four generations, we remain a family-owned company, having filed for over 15,000 patents with a current offering of over 26,000 products. Still leading the industry in innovation and quality. Bolder than ever.

Our experience of the world is shaped by the things we encounter every day. From a favorite scarf to the art on our walls and the mugs in our cupboards, the objects we choose give our days rhythm and texture. They express who we are, tell the world what we value, remind us of where we've been and who we want to be.

At Kohler, we have always known this. So, we understand that your sink isn't merely a sink. It's part of your story – one of the objects in the home you've chosen, in the life you've thoughtfully curated. It's woven into the arc of your day. Our Artist Editions<sub>®</sub> collection was designed to help you tell a story that's truly yours.

# Art & Craft

Functional works of art, Artist Editions<sub>®</sub> decorative products go beyond beautiful design. Handcrafted from the finest materials to be one of a kind, these products are as individual as you are. For the homeowner with an artistic sensibility, decorative products let you create a space that is truly your own.

The Artist Editions<sub>®</sub> line features a number of bathroom sinks that are crafted from natural materials using methods that have been passed down for generations. Honoring the inherent beauty and potential of the materials, Kohler designers and artisans create one-of-a-kind works of art for the home.

#### Glass

A substance that seems as visionary as it is rooted in daily life, glass has a versatile, fluid nature that lends itself to artistic expression. Cast, spun or pressed – our glass sinks are crafted by our own small team of artisans in Kohler, Wisconsin. With a precision that rivals watchmaking and a process that can take days, these glassmakers heat, pour and cool glass to capture the right form and texture, color and translucency, shaping basins that range from smooth and sculptural to intricate and patterned.

#### Bronze

Widely used aboard ships because of its strength and resistance to salt water, bronze is a fitting choice for a bathroom sink. We work with highly skilled craftspeople to transfer each incredibly detailed pattern from mold to casting. Depending on the pattern's complexity, it may take days simply to fabricate the casting. Each sink is smoothed and polished to a burnished living finish that deepens with character over time. When the bronze patina has achieved exactly the look you want, a light coat of wax will slow the color change.

#### Marble

White Carrara marble carries a sense of ancient architectural grandeur and exquisite artistry. We've chosen this iconic stone for our Botticelli<sub>®</sub> Vessel and Purist<sub>®</sub> Wading Pool<sub>®</sub> sinks because of its strength and beautiful coloring. We begin by hand-selecting quarried marble with a rich, subtle character that will come to life in the simplicity of our designs. Milled and hand-finished, each sink embodies a unique story of time and place. We strive to honor that history with unembellished forms and meticulous craftsmanship.

Spun Glass<sub>®</sub> Vessel K-2276-TG1 Purist<sub>®</sub> wall-mount faucet K-T14414-4-CP The intricate designs we choose for our ceramic Artist Editions<sub>®</sub> products are inspired by cultures and landscapes from around the world. Kohler designers pore over architecture, textiles, craftwork and fine art to create the patterns and textures our skilled craftspeople painstakingly bring to life.

#### Patterns

Based on centuries-old methods used to create fine china such as Wedgwood, we work with the leading transferware manufacturers in the world to turn our artists' sketches into multicolored, multilayered patterns. With detailed precision, each pattern is hand-applied before the fixtures are fired to perfection in our custom kilns.

#### Metallic Details

Adorning things we value with precious metals is a tradition long practiced in many cultures. Gold and platinum, in particular, have ornamented fine dinnerware for centuries. We've extended this practice to several Artist Editions designs, layering gold and platinum into complex patterns for an added sense of formality and sophistication. Metallic patterns are hand-applied and kiln-fired for durability.

#### Subtle Textures

Textured patterns begin with meticulously carved, in most cases hand-chiseled, plaster molds. From these, we create working molds that produce ceramic sink castings ready to be glazed and fired. To accentuate the details of the relief pattern, we use a translucent glaze. The result is a unique visual and tactile experience. Color pools and deepens where the pattern dips and is softer where the pattern rises. Every nuance comes to life.

### Antilia Wading Pool

The legendary island Antilia was said to have been discovered – in the Atlantic Ocean off the coast of Portugal – by people fleeing Hispania in 734. Today, cartographers know no such island exists, but its intrigue remains. By bestowing this name on the Antilia Wading Pool sink, Kohler celebrates the sense of allure found throughout nature. Slightly curved edges and a subtle, rippled texture convey both the substantial force of nature and its shifting fluidity.

From its roots in ancient India to its discovery by European royals, the briolette – an oval or pear-shaped gemstone cut in triangular facets – remains one of the most distinctive gemstone cuts. Its popularity reemerged during the Victorian era and the art deco period, and today the Briolette Vessel glass sink builds on the tradition. With its uniquely faceted shape, Briolette creates a striking, reflective effect with delicately textured glass.

### Water's Grove Vessel

Reminiscent of handcrafted dimensional pottery from the American Arts and Crafts era near the turn of the 19th century, the Water's Grove Vessel sink features a low-relief floral pattern of clematis, hibiscus and Lenten roses. Artisans of the movement were passionately committed to creating art by hand with intricate detail, and Water's Grove honors this tradition. Water's Grove is finished with a glaze that gives the relief a highlighted appearance.

#### Translucent Cashmere<sub>™</sub> (K5)

Evenweave

From the soft, yet richly tactile feel of a worn leather jacket to the intricate weavings of knitted clothing, texture enhances appreciation of materials and design. Evenweave plays on our delight for natural materials and intricate artwork with a repeated dimensional quality. The translucent glaze highlights the carved texture.

Tile-in apron-front sink Overall 25" x 22" x 8" Bowl 21<sup>1</sup>⁄<sub>4</sub>" x 15<sup>3</sup>⁄<sub>16</sub>" x 8"

K-14571-FC-0

Crafted of fireclay with a durable, glossy finish, Interlace looks deceivingly delicate. Its intricate patterns, reflecting the late 19th-century revival of oriental motifs in architectural facades, have a handmade feel reminiscent of sewing, weaving or carving done by hand. The result is a lovely centerpiece for the kitchen, where handmade creations bring pleasure to the entire family.

### Alençon Lace

Sandbar (G9)

Cashmere<sub>™</sub> (K4)

Black Black<sub>TM</sub> (7)

A bustling market town in the picturesque countryside of France, Alençon has been known for Alençon lace, or point d'Alençon, since the 17th century. The technique, which produces intricate, varied patterns, was preserved by a small group of Carmelite nuns, and today has become a coveted detail on wedding gowns. The Alençon Lace pattern on the Dickinson<sub>®</sub> single-bowl sink brings a graceful interlacing pattern reminiscent of this needlework to the kitchen.

Finding just the right faucet to pair with your Artist Editions<sub>®</sub> sink is an easier task than you might think. We've gathered a select portfolio of contemporary faucets that feature a minimalist design and naturally support the beauty of the sink. These faucets are available in a variety of finishes to complement the decorative pattern or glaze of your sink. As you choose, you'll want to keep in mind the basic rule of thumb that there should be about six inches between the end of the faucet where the water emerges and the sink surface. Be sure to measure using the angle the water flows in as it leaves the faucet.
