

# LED Picture Light

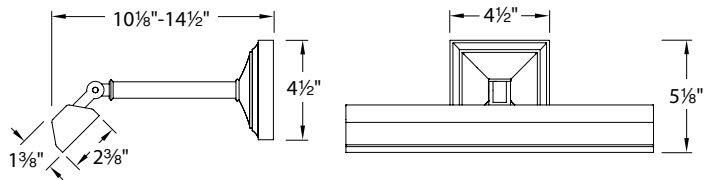

Fixture Type:

Catalog Number:

Project:

Location:

## PRODUCT DESCRIPTION

To properly illuminate fine artwork, you need the entire spectrum of visible light from reds to yellows, to blues and violets. However, invisible rays, such as infrared and ultraviolet are damaging to color pigments. While challenging to achieve for other light sources, that all emit residual infrared and ultraviolet radiation, quality LEDs provide the perfect solution. Expect ample full spectrum illumination and high quality preservation of your prized artwork. Available in four new stunning finishes developed specifically to complement upscale art frames.

## FEATURES

- Fixture extends up to 14 1/2"
- Head rotates 90° up or down
- Portable fixture includes an 18" aluminum wire cover in matching finish
- Dimming with electronic low voltage (ELV) dimmer
- Replaceable LED module
- 50,000 hour potential life
- [Color Temp: 2700K](#)
- [CRI: 85](#)

## FIXTURE PERFORMANCE

Watt	Lumens	Efficacy (Lm/W)
9.4	302	32
16.9	605	36

## SPECIFICATIONS

- Construction:** Aluminum with frosted glass lens.
- Power:** Direct wiring, no remote driver needed. 120V input / 24V output.
- Light Source:** 24 (14") or 48 (24") 2700K high power LEDs.
- Mounting:** Hard wired or plug-in models available.
- Dimming:** Dimmable to 10% with electronic low voltage (ELV) dimmer.
- Finish:** Antique Nickel (AN), Burnished Brass (BB), Polished Nickel (PN) and Rubbed Bronze (RB).
- Standards:** ETL Listed.

## ORDER NUMBER

	Length		Finish	
Hard Wired	14-27	14 1/16"	AN	Antique Nickel
			BB	Burnished Brass
	24-27	24 7/8"	PN	Polished Nickel
			RB	Rubbed Bronze
Portable	14P-27	14 1/16"	AN	Antique Nickel
			BB	Burnished Brass
	24P-27	24 7/8"	PN	Polished Nickel
			RB	Rubbed Bronze
