PHILLIPS HEAD SCREWDRIVER
TOOL NEEDED (NOT INCLUDED)

1. Place stool tp (A) upside down on a non-abrasive
surface. Attach one leg assembly (B) to the rails on
the stool top (A), using hexagonal bolts (E) to tighten
on each side.
**Do not tighten the hexagonal bolts (E) all the way.**

2x
2. Insert the short stretchers (C) into the upper part of
leg assembly (B) as shown.
Note: the shorter side of stretchers must face the top.

Insert the long stretchers (D) into the bottom part of
leg assembly (B) as shown.
Note: the shorter side of stretchers must face the top.
3. Attach the second leg assembly (B) to stool top (A), short stretchers (C) and long stretcher (D).

Insert hexagonal bolts (E) on both sides of leg assembly (B) to connect to top seat rails. Tighten slightly.
Do not tighten the hexagonal bolts (E) all the way.

H

E

2x
4. Place the stool upside down.
Insert the screws (F) through all the stretcher holes located on the underside of all stretchers (C and D), as shown. Tighten all screws all the way so there is firm connection between the stretchers and leg assemblies.

When completed, tighten 100% all 4 hexagonal bolts (E) used in the assembly of this product.

F

8x
5. Insert wood buttons.

Assembly is complete.
