

Ottoman Sleeper

Most days it's an attractive micro suede covered ottoman, perfect for putting your feet on while watching TV. But when a guest decides to sleep over, this unique ottoman converts easily into a comfortable sleeper cot.

You've got to see it to believe it - this handsome Sleeper Ottoman turns into a very convenient sleep over bed in seconds! Simply remove the easy-clean microfiber slipcover and unfold the cushion-covered metal frame. Presto! You now have a bed with a Memory Foam Mattress that is perfect for unexpected guests, a slumber party or if a friend sleeps over. In the morning it is just as fast to convert back to an Ottoman.
